PATENTED

14160
M-BULL-LOCK OVAL

Security side and back doors of vehicles

- Secures side and back doors of vehicles against burglars.
- The bracket can easily be attached under the locking plate of the door.
- There is no need to drill !
- The bracket and the Bull-Lock Oval are made of stainless steel, finished with a powder coating.
- Bull-Lock Oval has a strong red plastic housing.
- Delivery standard with a cylinder lock with 2 keys.
- Delivery without bracket.
- The Bull-Lock Oval lock cannot be attached without a bracket.
- The bracket is attached under the lock plate, close the door and fasten the Bull-Lock Oval on this. The door is now safely closed.
